

DOLCIANI MATH CENTER HAPPENINGS

JUNE 12 – JULY 1

What is the Dolciani Math Center? It's a comprehensive support Center for those wanting to do well in their math, stat, or QR course. Successful students **come early in the semester, come often, and come consistently.**

Why should I go there? The Center is not only for those who are not doing well, but also for those who are doing well and want to work with others in their class. Those who used the Center state that it definitely helped them get a better grade.

Where is it? It's located in the 68th Street Library on the 7th floor.

Do I need an appointment? No – appointments are not necessary.

What hours is it open for the summer? Mon-Thurs 9:00am – 7:00pm both onsite and virtual. For virtual hours go to our website www.hunter.cuny.edu/dolciani and click on “enter the virtual DMLC.”

What does it offer? There is tutoring, practice problems for your course, tutorial DVDs, computer tutorials, textbooks, study tables, workshops, academic coaching, study skills tips, etc.

Need more info? Go to the website www.hunter.cuny.edu/dolciani or follow us on Instagram and X.

Tutoring: We offer small-group tutoring with a variety of hours, both onsite and virtual, for math/stat courses and any course that uses math/stat. Multiple tutors available. Go to our website and see all of the hours. **NO APPOINTMENTS NECESSARY.** NOTE: There will be a different schedule for tutoring beginning July 1st. Be sure to check our website.

Study Groups: The Center sponsors study groups for each of the courses it supports. Working with others in your class helps you get stronger on the topics in your course. Studies show you can reduce the time needed to work on assignments and study for tests by working with others. Why struggle with a topic when there are others who can help you? Take advantage of the Center.

Looking Ahead (keep checking bulletins/signs around campus for more information as planning continues)

Student Success Conference: The date is **Wednesday, August 13th** and all students taking a MATH/STAT course in the Fall are encouraged to attend. Invitations will be sent out the week of June 19th. This conference will give you insights into ways to be successful as well as an opportunity to hear from students who have taken these courses. It's an all-day event so put it on your calendar now.

Repeater Meeting: The date is **Wednesday, August 20th from 1:00 – 3:30** and any student repeating their MATH/STAT course is strongly encouraged to attend. This meeting will speak about what worked, what didn't, changes you can make, and how the Center **coaching program** can give you the additional support you may need.

Special Boot Camps: will give you a solid math foundation as well as study tips for your course.

MATH 150: July 7, 8, 9, 10 from 12:00 – 3:00 or August 4, 5, 6, 7 from 3:00 – 6:00

MATH 104: August 11, 12, 14 from 11:00 – 2:00

STAT 113: July 22, 23, 24 from 12:00 – 3:00 or August 5, 6, 7 from 10:00 – 1:00

Traditional Boot Camps: These are one-hour sessions to help you review specific concepts needed for Day 1 of your course. The dates are **August 11 through August 21**. The schedule will follow soon.
