COVID Protocols for In-Person Attendance:

The National Center is working with the NYC Seminar and Conference Center on safety protocols for in-person conference participation and will continue to monitor recommendations from the CDC, WHO, and local health officials. Please see the [NYC Department of Health COVID webpage](#).

All in-person participants at the 2022 Annual Conference, whether a presenter, attendee, staff, guest, or vendor will be required [to be fully vaccinated](#). As part of conference registration for in-person conference participation you must [submit](#) vaccination documentation. If you are not able to meet the vaccination requirement, please register for virtual participation.

All in-person participants at the National Center event will be [required to wear masks](#) at all times during the event except while [actively](#) eating/drinking, presenting, or in an outdoor venue where individuals can be physically distant. Masks must cover both the mouth and nose. We ask that participants honor the requests of others to mask up and/or maintain physical distancing.

If public health guidelines prevent the holding of an in-person event in April, the conference will be held as virtual-only. In that case, registration fees paid for in-person registration fees will be applied to the National Center's 2023 annual conference or other events. Please use care when booking travel and hotel arrangements: the National Center is not responsible for airfare or other travel reimbursements should public health guidelines require cancellation of the in-person conference.
